Sweat Out

For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would relapse. Finally my physician prescribed S. S. S. In all, I took three bottles, and they entirely cured me, and I have never been troubled since. I am sure no other medicine could have given me so complete and immediate relief, and I cannot speak too highly of S. S. S. My partner in business is now taking S. S. S. for an eruption of the skin and general run down condition of his system, and though he has taken but one bottle, already commences to feel better.

LOUISVILLE, Kv., March 26th, 1902.
For several years I suffered with Chills and Fever,

enlargement of the spleen, loss of appetite and feeble digestion, a pallid or yellow skin, boils, carbuncles, abscesses, indolent ulcers, and pustular and

scabby skin eruptions of various kinds, are common symptoms of malaria. Frequently the health becomes so impaired, be November 13. and such a lifeless condition ensues that the person loses interest in his surroundings and and on how many previous years had faith in all human remedies. Malaria, if allowed to remain in the system, lays the foundation for other diseases that very often rove ed under a ladder. Before I had gone fatal or permanently wreck the health.

Malaria can only be worked out of the system through the blood, and a remedy that can destroy the germs and microbes and neutralize the bad effects of the poison offers the only hope of a cure, and the only medicine ten to one the house will catch fire. that can accomplish this is S. S. S., which not only purges the blood of all morbid, unhealthy matter, but keeps it pure and healthy. It searches out and destroys every trace of Malarial poison, and keeps the blood in such a vigorous condition that poisonous matters of no kind are allowed to accumulate, but are promptly expelled from the system.
